D10 Councilmember Johnny Khamis

- The City is discussing the Community Choice Aggregation process. It would be a new line of business for the City, involving dropping PG&E's role as the City's retail energy provider and having the City negotiate rates and purchase energy directly from the community of wholesale energy providers. The City would then resell to the users, and would have control over energy rates in place of the PUC. Consumer energy rates could wind up being higher. PG&E owns the transmission network and the cost of maintaining the network would be passed along to the consumer. Councilmember Khamis is seeking input from the community on this initiative.

Senior Citizens Commissioner Vince Tarpey:

- The County has a concern with unlicensed in-home care assistants, and is proposing a registry and regulations.
- Community Block Grants are now being reviewed for local uses including food and nutrition.

Assemblyman Stone's Representative Angela Gile said the Assemblyman plans to attend the Senior Association's Thanksgiving event.

PRNS Reports Gerontology Specialist Adriana Copado

We have 1480 members to date. Sign-ups for 2017 began November 1st.

- At present the Committee is working with Bateman on the St Patrick's Day and Thanksgiving lunches. Costs will be around \$8.
- New ideas this upcoming year include a Casino Party in April, a "Springtime in Paris" event in June and in September a Mystery Dinner.

Narender Virmani reported on the Diwali event. 160 attended, had both traditional and Bollywood dancers, great food, large raffle. Costs were covered with only a slight deficit. Thanked all. The mayor and Councilman both attended.
